powerful, compassionate piece of writing

By Brave New Russian World

«Airport» is a novel based on a true story of the heroic and dramatic 242-day defense of Donetsk airport by ragtag Ukrainian troops heavily outnumbered and outgunned by pro-Russia separatists and regular Russian troops which invaded eastern Ukraine in the summer of 2014.

In between graphically chilling accounts of the airport siege saga, the author leads us through the entire history of Ukraine's 2013-2015 popular revolution against the corrupt Moscow-backed regime in Kiev and the armed confrontation that ensued between mainly inexperienced volunteer Ukrainian troops and the mighty invading force of Russian mercenaries, local rebels and Russian army units.

The novel is not only and not so much about the stunningly outrageous war that should have never happened and was thought by many as impossible. It is also about human experience: love and hatred, betrayal and loyalty, passion and submission, courage and cowardice, and a whole range of human emotions and behavior in tests and trials.

The novel consists of chapters centered on one particular character and his or her story of war. The main character, Alexey, who ties the chapters together, witnesses all these stories and experiences. Alexey is an

American photographer of Russian descent covering the war in Donbass for a major U.S. daily newspaper on both sides of the front line. At the same time, he experiences a devastating personal tragedy that leaves him in shatters. It also casts for him a totally new view of his personal role in the bloody conflict, pushing him to an unlikely option that leads to a surprisingly dramatic climax.

The author's compassionate and richly detailed writing gives the reader a vivid, truthful and moving picture from the inside of the most recent and, as of December 2015, still continuing war in Europe.

FOR STEVEN SPEILBERG'S CONSIDERATION

By Alex Couprin

"Aeroport" is the latest release from the acclaimed war correspondent and author Sergey Loiko. The title refers to the bloody battle in the Donetsk Airport in Easter Ukraine where the local rebels tried to fend off the invading pro-Russian forces. The ongoing conflict in Ukraine has been much forgotten and eclipsed by other recent developments in the world, but it still rages on nonetheless. Mr.Loiko has documented the wars in Afghanistan in Iraq, and has now spent four days in the Donetsk Airport documenting that battle. His immersive narrative will throw the reader right in the heart of combat; to the sounds of missile and bullet strikes, agonizing moans of wounded soldiers, weeps of grieving mothers, the smell of burning flesh in destroyed vehicles, and other graphic horrors of this forgotten and ignored war. At long last, the much awaited and anticipated depiction is here.
