This is why on-line e-book [All Out War: The Full Story Of How Brexit Sank Britain's Political Class By Tim Shipman](#) becomes most desired.

ALL OUT WAR: THE FULL STORY OF HOW BREXIT SANK BRITAIN'S POLITICAL CLASS BY TIM SHIPMAN PDF

The best political book of the year' ANDREW MARR 'a superb work of storytelling and reporting. Sets new benchmark for the writing of contemporary political history' Andrew Sparrow, Guardian The only book to tell the full story of how and why Britain voted to leave the EU. Based on unrivalled access to all the key politicians and their advisors - including Boris Johnson, Michael Gove, George Osborne, Nigel Farage and Dominic Cummings, the mastermind of Vote Leave - Tim Shipman has written a political history that reads like a thriller, and offers a gripping, day-by-day account of what really happened behind-the-scenes in Downing Street, both Leave campaigns, the Labour Party, Ukip and Britain Stronger in Europe. Shipman gives his readers a ringside seat on how decisions were made, mistakes justified and betrayals perpetrated. Filled with stories, anecdotes and juicy leaks the book does not seek to address the rights and wrongs of Brexit but to explore how and why David Cameron chose to take the biggest political gamble of his life and explain why he lost. This is a story of calculation, attempted coups, individuals torn between principles and loyalty. All the events are here - from David Cameron's pledge to hold a referendum, through to the campaign itself, his resignation as prime minister, the betrayals and rivalries that occurred during the race to find his successor to the arrival of Theresa May in Downing Street as Britain's second female prime minister. All Out War is a book about leaders and their closest aides, the decisions they make and how and why they make them, as well as how they feel when they turn out to be wrong. It is about men who make decisions that are intellectually consistent and - by their own measure - morally sound that are simultaneously disastrous for themselves and those closest to them. It is about how doing what you know has worked before doesn't always work again. Most of all it is about asking the question: how far are you prepared to go to win?

Make Britian Great Again

By Tom Jennings

Fascinating look at the actors, the plans and the gaffes that led to Brexit. Shipman interviewed extensively and provides an almost day-by-day in progress review of the run-up to Brexit. The players on display are shown at their brilliant best and their lewd, bumbling worst. A must-read for political junkies, those trying to make sense of internationalism in retreat, and those curious about the parallels between Brexit and Trumpism.

By Amazon Customer

Fascinating instant - history of the Brexit campaigns and immediate aftermath. Even this yank across the pond could not put it down once I started reading - even knowing how it ends!

One of the best books I've ever read

By Chris DeRose

One of the best books I've ever read, and, as a political work, in the league with Cramer's masterpiece "What it Takes" (the greatest book ever written on politics) and Caro's Lyndon Johnson series.

I've been following British politics since the 1990's and intensely since the 2000's. But I wondered whether 688 pages on the Brexit referendum was more than I needed. On the contrary, Shipman provides all the necessary context of Britain's long and tumultuous relationship with the European Union without lingering or engaging in tedium.

What follows is a gifted storyteller mining an epic drama for all of its narrative worth. Imagine a national referendum over the future of the country with fissures running through party lines and pitting leaders of the

two major parties against one another.

Underlying this national battle is the psychodrama among a group of friends who attended Oxford in the 80's: Boris Johnson, who watched as his younger classmate David Cameron ascended to the leadership of the Conservative Party and the premiership ahead of him, who emerges as the front man of the Leave campaign, putting him on the path to being prime minister; Michael Gove, whose modest background affected the dynamic with his classmates Cameron and Johnson, found himself marginalized in the latter's government. Gove, who supplied much of the intellectual heft of the new Conservatives, would do the same for the Leave campaign. The interpersonal politics and personal history was just as interesting as the campaign itself, which cannot be understood without it.

Shakespeare wouldn't have dared to invent this story. Cameron, the young prince, never a Europhile, promises a referendum in order to win a General Election in 2015. The referendum fails, and his political career with it. In the retrospect of his amazing career, Europe was always there, waiting, to give him his greatest victory but also his final and fatal defeat.

How Leave wins, and the head Brexiteers lose the peace, is a story that deserved a book of this magnitude. I enthusiastically recommend it.
