It is very different with the typical means by going to the book store around your city.

From Publishers Weekly

Starred Review. If readers found the Sandman series creator's last novel, *American Gods*, hard to classify, they will be equally nonplussed—and equally entertained—by this brilliant mingling of the mundane and the fantastic. "Fat Charlie" Nancy leads a life of comfortable workaholicism in London, with a stressful agenting job he doesn't much like, and a pleasant fiancée, Rosie. When Charlie learns of the death of his estranged father in Florida, he attends the funeral and learns two facts that turn his well-ordered existence upside-down: that his father was a human form of Anansi, the African trickster god, and that he has a brother, Spider, who has inherited some of their father's godlike abilities. Spider comes to visit Charlie and gets him fired from his job, steals his fiancée, and is instrumental in having him arrested for embezzlement and suspected of murder. When Charlie resorts to magic to get rid of Spider, who's selfish and unthinking rather than evil, things begin to go very badly for just about everyone. Other characters—including Charlie's malevolent boss, Grahame Coats ("an albino ferret in an expensive suit"), witches, police and some of the folk from *American Gods*—are expertly woven into Gaiman's rich myth, which plays off the African folk tales in which Anansi stars. But it's Gaiman's focus on Charlie and Charlie's attempts to return to normalcy that make the story so winning—along with gleeful, hurtling prose.

From School Library Journal

Adult/High School—Charles Fat Charlie Nancy leads a normal, boring existence in London. However, when he calls the U.S. to invite his estranged father to his wedding, he learns that the man just died. After jetting off to Florida for the funeral, Charlie not only discovers a brother he didn't know he had, but also learns that his father was the West African trickster god, Anansi. Charlie's brother, who possesses his own magical powers, later visits him at home and spins Charlie's life out of control, getting him fired, sleeping with his fiancée, and even getting him arrested for a white-collar crime. Charlie fights back with assistance from other gods, and that's when the real trouble begins. They lead the brothers into adventures that are at times scary or downright hysterical. At first Charlie is overwhelmed by this new world, but he is Anansi's son and shows just as much flair for trickery as his brother. With its quirky, inventive fantasy, this is a real treat for Gaiman's fans. Here, he writes with a fuller sense of character. Focusing on a smaller cast gives him the room to breathe life into these figures. *Anansi* is also a story about fathers, sons, and brothers and how difficult it can be to get along even when they are so similar. Darkly funny and heartwarming to the end, this book is an addictive read not easily forgotten.—Matthew L. Moffett, Northern Virginia Community College, Annandale

From Bookmarks Magazine

In the bestselling *American Gods* (2001), the gods of old European, African, and other mythologies retired as ordinary, if eccentric, people. One of these gods, Charlie's father, appears in the follow-up novel, *Anansi Boys*. Gaiman, best known for his 1990s *Sandman* comic book series, describes his new work as "a magical-horror-thriller-ghost-romantic-comedy-family-epic," and critics agree that it's all that and more. Some noted the conventional nature of the comedy-drama part, with a fast-paced plot driving a narrative about good and evil. And as fantasy, *Anansi Boys* "is certainly quite inventive, if not revolutionary" (*San Antonio Express-News*). Overall, Gaiman's novel is witty, giddy, and exhilarating—if not quite as satisfying as some of his previous work.

ANANSI BOYS BY NEIL GAIMAN PDF

In this #1 New York Times bestseller, Neil Gaiman returns to the territory of his masterpiece, *American Gods* (soon to be a Starz Original Series) to once again probe the dark recesses of the soul.

God is dead. Meet the kids.

Fat Charlie Nancy's normal life ended the moment his father dropped dead on a Florida karaoke stage. Charlie didn't know his dad was a god. And he never knew he had a brother. Now brother Spider is on his doorstep—about to make Fat Charlie's life more interesting . . . and a lot more dangerous.

“Thrilling, spooky, and wondrous.”

—Denver Post

“Awesomely inventive.... When you take the free-fall plunge into a Neil Gaiman book, anything can happen and anything invariably does.”

—Entertainment Weekly

“Delightful, funny and affecting.... A tall tale to end all tall tales.”

—Washington Post Book World

It's Neil Gaiman. That's all you need to know. Read it.

By Nikki

Such an absolutely delightful tale this was. I fell in love with *American Gods* long after most of the book world had been telling me for years 'YOU HAVE TO READ THIS BOOK.' And they were right, of course. I should listen more. When I found out *Anansi Boys* was along a similar vein, I was so excited! Because for me, it's very difficult to find books that are exactly like this, with characters so flawed and complex, who screw up a lot, but are also brave and find themselves through the course of a magical fairy tale. That is

exactly my very favorite kind of book, and I never knew it was until I discovered this author. This one is much less dense than American Gods, but not in a bad way. Less characters and intertwining plots, but I found that to be an advantage, as I very much liked who lived among these pages. I think that's really the core of what I like so much; so much life is given to everyone and everything. An entire world is unwrapped for you to explore, some of it dark and violent (he always has that) but also beautiful and always highlighting the resilience of the human spirit. And that is such a nice thing to celebrate.

Sometimes I will go a long time without reading something like this, and I'll read several sub-par books in a row, and then I'll remember that there is magic in the book world and I run to it.

Sometimes you just don't know how much you need to read Neil Gaiman until you read Neil Gaiman. You probably need to, and this is an excellent choice.

Blend of the mundane and the fantastical

By Shawn Klein

The story starts a bit slow, but as the pieces start to come together, it hooks you. Gaiman uses Caribbean and African myths as a backdrop to tell a story that is ultimately about finding yourself in the world. It is about coming to grips with where you came from (your parents, your ancestry), but at the same time being you and not letting that stuff either keep you down or define who you are.

Gaiman has a knack for writing stories that blend the mundane and the fantastical. Anansi Boys is no different: the fantastical world of the myths and stories fit naturally into the life of a rather boring bookkeeper's life. Still, as the stories are told, this mundane boring life changes, evolves into something new and compelling.

Some might not like the tidiness of the ending or the predictability of various plot-lines; but the story captures the imagination and you want to ride out what you know is coming: (1) to make sure that is indeed what will happen and (2) because you want to watch it happen.

FWIW: I haven't read American Gods (yet)

Ah, what a tangled web...

By Amazon Customer

Only the trickster god could produce such children! Really fun, dark, silly, suspenseful, occasionally...weird, yep. It's Gaiman. Love love love Anansi! He was a great character in American Gods, and he's fun here. He may be a god, but he's still a dad. Loved this story of bringing a family back together again. Well, a couple of families. And solving a crime, AND a murder. And helping a ghost. Oh, and taking care of a tiger. Of course, there are spiders. I've got this as both physical book and Audible (for long trips in the car). Both are great, but I hear it all now in the Audible narrator's voice (which is awesome!). I can see it as I read it (or listen to it). Hoping this becomes yet another series. You don't need to read American Gods to appreciate it.
