writing 122

By AlienZ

This is a textbook, pure and simple. If you are taking writing in college you will eventually need this book or some later edition of it. This book is actually great for those who want to become a better writer not just for those of us who have to read it for credit. It truly is a guide to collegiate writing, as it covers every thing you need to pass and touches on the many mistakes that beginning writers make.

Very good condition, fabulous book, extremely helpful

By Garnonlal

I was very pleased with the condition of this book. It appears brand new, but it's a rental. I find it incredibly helpful for my class on writing thesis essays and would definitely recommend it to a friend.
