An Above Average Book

By Lucia Ponce

Each small chapter is a heartwarming step towards personal change. Even though its meant to be read chapter by chapter each week, I could not put it down! I want everyone I know to read it. Honestly, if more books were written like this, the world would have much happier, kinder and successful people. Not technical, but spiritual.. full of lovely anecdotes and short stories that inspired me thoroughly. Ever since I read this book as well as its predessor, my life has skyrocketed! No longer average! :)

Pithy but Powerful

By Donna L. Schillinger

Each of 52 nuggets is really just a collection of sayings that are not particularly tied together well. However, there are some great quotes in here - the kind you wish you could remember and easily spout at the perfect moment. After reading the book through in a matter of days, I think I will reread one chapter a week, as the book recommends. I could see this being something I reread year after year.
