HELICOPTER MAN POUNDS DINOSAUR BILLIONAIRE ASS (A NOVEL) BY CHUCK TINGLE PDF

“My name is John Hams and I’m a sex addict.”

And so begins Dr. Chuck Tingle’s first full length novel, Helicopter Man Pounds Dinosaur Billionaire Ass, a thrilling superhero origin story that will take you to the edge of gay erotic romance and stare bravely into the abyss. It is a story so powerful, so sensual, that it could change the very face of erotic literature forever.

John Hams is a man who has lost it all, a nine-to-five nobody with an addiction to billionaire dinosaur bad boys. That is, until a freak accident at work imbues John with the ability to transform into an achingly handsome helicopter at will.

Suddenly, things are looking up, as John uses his ability to woo the dashing stegosaurus from his addicts group who just happens to have a thing for rugged aircrafts. But it’s not long before John’s new helicopter identity starts to spin out of control, taking on a personality of its own as the wild and horny, Chibs Pratt, chopper with abs.

Can John Hams become the hardcore gay hero that he is destined to be, or is this shifter bound to be nothing more than his own worst enemy?

The room itself is massive, as well, with another set of windows that fill the far wall from floor to ceiling and look out towards the distant Hollywood Hills. It’s a corner unit, providing two completely unique, but equally breathtaking, views.

I slowly strut across the hardwood floors on my landing skids towards Yorb, enjoying the way that his yellow dinosaur eyes flicker and dance across my metallic body. At this point, he can’t help but stare.

Seductively, I give my blades a quick flash of speed and hover up onto the bed, then crawl towards him, eventually positioning myself directly over his body. I take Yorb’s hands carefully with two blades and pull them above his head, controlling him completely as I make my way down his ripped chest and scaly abs with a series of sensual helicopter kisses.

This book is well written and that makes me angry.

By Rachel Schaffer

I'm dismayed to find that this book about a man who can transform into a helicopter who lusts after dinosaur billionaires has more world building, character development, and plot twists than many of the books I've recently read. It makes angry. Who is this author in real life? Lemony Snicket?

Probably.

There's a fine sprinkling of typos in this novel, but it seems more effort was put into this book than most other erotica. I've come to realize that Chuck Tingle is a national treasure, and I'm disgustingly pulled into wondering what will happen next to these characters as the romance and suspense is well paced and the pseudo science is bizarrely solid.

Going into this, I assumed Chuck Tingle wrote this book giving zero effs, but it looks that at least four out of five effs were given during the crafting of this modern masterpiece.

I would recommend this book to both no one and everyone. Get this for your friend in a hard copy and watch as they open it. Send it to grandma. Read it on the train. Request it to be carried by your library.

If you read only one novel about a helicopter man pounding a billionaire dinosaur this year, make it this one.

I am so happy to finally be represented in erotic fiction

By Deal Finder

This is the new 50 shades of grey. As an attack helicopter, I am so happy to finally be represented in erotic fiction. Even as a non-helicopter you will find this book some of the best erotic fiction ever written. Definitely give this a read.

I bought this book on a whim and now I'm Tinged for life

By Erin Rand

Incredible. I've been laughing in delight about the titles and descriptions of Chuck Tingles books for some while now, but only today decided to, against my better judgement, actually order one of his ebooks. I'm so glad I did. I laughed so hard I cried on more than one occasion, but even more than that- it's meticulously crafted. The writing is actually really quite good, and I found myself not only intrigued and charmed by the characters, but surprisingly involved in the actual plot...enough to where, absurdity aside, I would have still enjoyed it a lot, which was crazy. Really, I felt quite bad for both of the characters and their sad backstories, and was very fond of them. However, the true goldmine lies in the way that he writes the scenes: you spend the entire sex scene trying to bend your mind around how it works (a helicopter getting sucked off in a bathroom stall?? a dinosaur with scaly abs being pinned down by landing strips?!?), and he makes it just confusing enough to where you can really never get a complete visual grasp on what is going on, with little regard to scale or continuity. Its just absurd enough to be hilarious, but just tangible enough to keep you from disconnecting. You will be rolling on the floor. Please, do yourself a favor and forego your Starbucks latte for one day and buy this damn ebook.
