Review

“Excellent. Vatanka offers timely insights into an important geopolitical relationship that is often overlooked but is critical to understanding some of the key elements that have contributed to relations between Iran, Pakistan and America” (David Patrikarakos, author of Nuclear Iran: The Birth of an Atomic State 2015-08-27)

“In tracing the course of Iranian-Pakistani taut relations over nearly seven decades, Vantanka's lively, thoroughly researched book threads together those personalities and events that have shaped two of the most challenging countries faced today by Western policy makers. The book provides for a sound understanding of areas of foreign policy and regional and global alliances that once figured so prominently in the Cold War and now in the fight against global militant extremism. The Shia-Sunni rivalry, regional nuclear proliferation, and the American dimension are also illuminated by this book's wide-ranging, engrossing narrative.” (Marvin Weinbaum, Director of the Pakistan Center at Middle East Institute, Washington DC and Professor Emeritus at the University of Illinois at Urbana-Champaign 2015-08-27)

“A fascinating and enlightening study of the complex and intricate relationship between two key Islamic states, Iran and Pakistan. This much neglected connection between the Middle East and South Asia will only become more important in the future. This book explains clearly and cogently why that matters.” (Bruce Riedel, Senior Fellow, Brookings Institution 2015-08-27)

“This book is an ultimate supreme example of all the works so far done on the subject. Vatanka's composition, the sources he has consulted and the ease with which he expresses himself make this a unique task of scholarship” (R.K. (Ruhi) Ramazani, Edward R. Stettinius Professor Emeritus of Government and Foreign Affairs, University of Virginia 2015-08-27)

IRAN AND PAKISTAN: SECURITY, DIPLOMACY AND AMERICAN INFLUENCE (INTERNATIONAL LIBRARY OF IRANIAN STUDIES) BY ALEX VATANKA PDF

The respective policies of the governments of Iran and Pakistan pose serious challenges to US interests in the Middle East, Asia and beyond. These two regional powers, with a combined population of around 300 million, have been historically intertwined in various cultural, religious and political ways. Iran was the first country to recognise the emerging independent state of Pakistan in 1947 and the Shah of Iran was the first head of state to visit the new nation. While this relationship shifted following the 1979 Iranian Revolution, and tensions do exist between Sunni Pakistan and Shi'i Iran, there has nevertheless been a history of cooperation between the two countries in fields that are of great strategic interest to the US: Afghanistan, nuclear proliferation and terrorism. Yet much of this history of cooperation, conflict and ongoing interactions remains unexplored. Alex Vatanka here presents the first comprehensive analysis of this long-standing and complex relationship.

This book is an excellent examination of the turbulent history of Iranian-Pakistanirelations from 1947 until today. I know of no other work that covers this complex and strategically significant relationship over this expanse of time. The book is based on extensive archival research including US and British declassified files, personal memoirs of Iranian and Pakistani former officials, and valuable interviews with key actors such as former heads of the Pakistani ISI and the Iranian Supreme National Security Council. While extremely rigorous, the book is also written in an engaging style that appeals to a wider readership interested in understanding the dynamics of the wider Middle East. Among his many interesting conclusions is that the reason for the distance between Tehran and Islamabad is not the change of power and the rise of the Ayatollahs in Tehran in 1979 but that it was the Shah who as early as 1971 recognized that Islamabad's obsession with all things India was going to be a drag on Iranian interests and began the process of moving Iran away from its eastern neighbor.
