The text is full of run on sentences and bad prose, stinking of something written on the fly

By Smart Buyer

If you need this for your nursing education, I am sure that Amazon can help. The text is full of run on sentences and bad prose, stinking of something written on the fly. When I read a bad textbook, I often think of sending in proposed corrections. The ideas and impetus for the writing are great.

the online took is garbage: repeated crashes and failed searches

By RA

Online content is a total scam. Gives you limited accessibility (1 year) to the content YOU ALREADY PAID FOR and then tries to charge to "renew" it. Other publishers don't do this. Further, the online took is garbage: repeated crashes and failed searches. Professors: please assign your students a book from a different publisher.
