Pebbles in the Road takes you inside the extraordinary experiences of joy, sorrow, strength, hope and survival in one woman's life. This story will wrench at the heart.

From a mediocre childhood through the 50s and 60s in Brisbane to disappointing relationships, the joy of motherhood, and the love and loss of a son ... these are the happenings that have shaped a life.

Readers will be able to relate to what it was like growing up in a time when children could be children and those too young to know will enjoy the anecdotes of an era filled with things we take for granted now.

This story is about finding strength in the face of the greatest adversity and the courage to make choices. During challenging times in our life, ultimately we are responsible for our own well-being and happiness.

When doctors told me I should leave my baby at the hospital to die, I had to draw upon all the experiences of my life—good and bad—to prove them wrong.

I was raised in the Brisbane suburb of Salisbury during the 1950s and although my parents were loving, I experienced emotional and physical abuse from them and from my older sister Genia. It has taken me many years to realise that's what it was—at the time I thought my experiences were normal.

As I grew older, I attracted men into my life who continued this pattern of neglect, abuse and mistreatment. When my firstborn son, Gavin, was diagnosed with a fatal heart condition, I had to rely on myself for our survival.

Within the environment of neglectful relationships, I struggled to be a good parent to Gavin and my other children. I lived in near-constant fear that Gavin's next hospital visit would be his last.

Pebbles is about growing up, finding the strength within you to face life's trials, a mother's love and the courage of a young boy whose heart, though fatally flawed, was the gentlest, most loving heart I've ever known.

Hi Ryll, just had to send my congratulations on a truly wonderful book. I just couldn't put it down, and will pass it on to my Mum and my sisters. Now hurry up and write the next book!!!!

Take care M.

Thank you Ryll,— I have just finished reading Pebbles in the Road, Which I got from you on Saturday. What a wonderful read it has been, I have been taken on a life journey that has been an amazing mixture of emotions and happenings. I have laughed and cried all the way through your life story. I don't read too many books—and mostly Philosophical or educational books, and I tend to take a long time to read them. Your book was different ! I read it in just a few sessions, I found it to be gripping! Your life has touched many people in deep ways. What a blessing for you to have had Gavin,—such an amazing young man. I would say that with all the difficulties you have endured in your life, they have been necessary for you to be the Woman you are today. I thank you for a memorable reading experience.

Sincerely B. W.

Hi Ryll,

I don't normally contact authors or write letters to newspapers or blog but this time I felt I must. Just read your book. It was like a trip back in time. I was born in '54 and lived on the same side of town so I really identified with the places you spoke of and the way we lived as kids. Like you I had some rocky relationships and also I had my first child in the '70s (or rather my wife did), fortunately he enjoyed good health and now has children of his own. I was moved to tears to read of your son's death though at least you had him a lot longer than the doctors predicted. I now reside in Adelaide, but reading your book made me yearn for Brisbane.

Pebbles in the Road

To the Author:

Hi Ryll, I have finished your book. You have done a great job in depicting who you were as a young person. I could really get the sense of your persona from the writing.

I liked how you did explanations of things when the need arose, it became somewhat educational and will be important for future generations to see what it was really like back then.

Your incredible dedication to Gavin gave him 17 precious years with you. He is a shining example of love at it's best. I am so delighted that you were able to have such strong intuitions and act on them.

I laughed and cried at different points along the way. I identified with some events as well.

I hope young women can read about your relationships and stop themselves from going down the same path. Even if it helps just one, it will have been absolutely worth it.

Perhaps a sequel should be in order taken from where you left off.

I didn't want to put this well written book down.

Love and light, Kirsty

that was a beautiful read. Though there was no mystery

By Neelima

Ryll, that was a beautiful read. Though there was no mystery, it was still a page turner. It kept me awed as to how many woman would stand up in front of a mirror and ever reflect on there past the way you did.

It was truly inspiring.

I just kept wondering , writing about Gavin was a meaningful thought. It would have given a lot of solace to you and many others in the same boat where you constantly are unsure ,if that was the right thing to do. But the way you intertwined your relationships with parents, siblings, friends and spouses without diluting your care as a mother and keeping yourself motivated and financially secured was truly inspiring..

I do look forward to readlife after Gavin
