PRESIDENTS AND THE AMERICAN PRESIDENCY BY LORI COX HAN, DIANE J. HEITH PDF

Presidents and the American Presidency engages students in the study of the presidency through an exploration of both the political institution and the men who have held the office. Considering both the strengths and the weaknesses of the office, authors Lori Cox Han and Diane J. Heith move beyond purely theoretical analysis to examine the real-life, day-to-day responsibilities and challenges that go with the job.

FEATURES:

- * Incorporates archival documents from multiple administrations--in a "Then and Now" format--that reveal the inner workings of the White House and animate the discussions from the perspective of the presidents and other political actors
- * Offers extensive coverage of methodology, teaching students how to analyze the institution
- * Develops critical-thinking skills by integrating both institutional and president-centered approaches
- * Includes an in-depth discussion of campaign finance as an essential part of electing presidents

A Must-Read for Any Serious Observer of American Government

By Paul Selbst

A superb and insightful book. It examines the institution of the American presidency, from the outset to the present, and shows how individual presidents, and historical events, have contributed to the evolution of the presidency. It looks at the president in relation to the Constitution, Congress, the courts, the executive branch, public opinion, the media, and more. In this period of political dysfunction in America, the book offers well-documented facts about presidential precedents that give the lie to opposition attacks and hyperbole, for example, on "presidential overreach." This is a must-read for any serious observer of our system of government. This should be read in concert with *The Paradoxes of the American Presidency*, by Cronin and Genovese, for a complete understanding of this most-important office.
