# THE LEMAY LEVELLER BY ERIN SUMMERS NORMAN PDF

From the banks of the Mississippi to the streets of St. Louis, finally coming to rest in Colchester. The Lemay Leveller is a the story of one woman's adventure from a troubled childhood, nihilistic youth and finally, triumphant middle age, weaving a thousand diary entries into a narrative that explores life, war, abuse, suicide, homelessness, religion, childhood, duty, patriotism, police violence, sexuality and yet more.

This is a book full of richly sketched characters, not the least of which is Lemay itself. A beautifully rundown area of a divided city "made for the John Waters films that circulated like guide books". The Lemay Leveller examines society one person at a time, calling on us all to recognise our part in the greater story.

While harrowing at times, The Lemay Leveller never loses its sense of humour, bringing the reader along on a journey full of music, passion, and wry amusement over the absurdities of life.

A harrowing tale that has to be heard

By Danie

The Lemay Leveller is a true to life tale, a piece of social prose and a damn good book besides.

It tells of one girl's fight to overcome and is equally a battle cry to all not to stand idly by.

In a time of excess by many The Lemay Leveller matter of factly details the life of someone who often had nothing.

The St Louis backdrop is reminiscent of the London and Manchester of the time where a vast swathe of youth was driven underground through choices not always of their own making. Those who survived will continue to fight the good fight.

The excellent writing allows for an immersion and following that the act of reading cannot achieve by itself. A "Choose your own Adventure" story where someone else is doing the choosing.

And yet it delivers such gems as "I read voraciously, and it was only a matter of time until I did it criminally". Not something I condone but this is a book to get your hands on by any means necessary.

An incredibly touching and honest story which will help others who have been there too

By iamhanuman

This book follows a young woman from birth to adulthood and feels as intimate as if you are reading her diary. The language is beautiful even as she describes some harrowing incidents and you wish you could climb into the pages to pull her out.

It's a very brave book and anyone who has dealt with abuse, whether that be from family, 'friends' or the state, will feel as though they have a sister who has been in the same place.

It's also a message to the world about how we could make things better, just a little bit, in our own way.

Incredible stuff, and I hope it sells far and wide!

Read this book

By Syntium

Even if the experiences that Erin goes through are beyond horrible, it's impossible to put down. The language is very accessible, and I am amazed at no matter how much crap life sends her way, she's able to walk through it with her head held high!

Read!
