In this informative call to action, Bales (*Disposable People*), sociologist and president of Free the Slaves, and Soodalter (*Hanging Captain Gordon*), a historian, document routine coercive slave labor in domestic service, prostitution, farm labor, factories, light industry, prisons and mining operations. While many sensational cases have been well publicized, the authors demonstrate that slavery exists in mundane and unexpected forms. Their case studies begin in an American suburb and traverse the globe to urban China and rural Ghana, returning to Los Angeles, Calif., and East Orange, N.J., just a few of 100-plus documented cases in the U.S. The second half of the book focuses on causes and solutions, with a helpful emphasis on how ordinary individuals can recognize and report coercive situations, creating a humane and helpful primer on how to sever the links that create and hide human bondage. In this riveting book, authors and authorities on modern day slavery Kevin Bales and Ron Soodalter expose the disturbing phenomenon of human trafficking and slavery that exists now in the United States. In *The Slave Next Door* we find that slaves are all around us, hidden in plain sight: the dishwasher in the kitchen of the neighborhood restaurant, the kids on the corner selling cheap trinkets, the man sweeping the floor of the local department store. In these pages we also meet some unexpected slaveholders, such as a 27-year old middle-class Texas housewife who is currently serving a life sentence for offences including slavery. Weaving together a wealth of voices—from slaves, slaveholders, and traffickers as well as from experts, counselors, law enforcement officers, rescue and support groups, and others—this book is also a call to action, telling what we, as private citizens, can do to finally bring an end to this horrific crime.

Strongly recommend this book to anyone wishing to educate themselves on anti-slavery history and modern day slavery

By J. White

Whether you a police officer, victim service provider, a student, a community member, an academic or anyone wanting to really identify issues and factual information about human trafficking, this is the source above all others. One can pick up the book and go to any section to find out "how" better to become effectively involved in prevention, prosecution, or understanding victims and their long road back to a sense of self-worth. This is a book that should be mandatory reading as a source book and yet a book that gives common sense advice in order to stop modern day slavery.

I hated this book, but it is a must read if you want a dose of reality about slavery NOW in America

By T K Wilson

Four stars say I like this book. The terminology is not appropriate. How can you "like" reading about slavery in America. I really hadn't thought about it before, but this opened my eyes, maybe a little too wide.

This is very completely researched and analyzed, and full of specific stories and situations throughout the country. From farm labor slavery in Florida to sex slavery in New York, to house slaves in Seattle. We see these people more than we know, but I had no idea about the reality of their bondage. They are held in place by physical and mental abuse, fear, and in some cases physical restraint.

Read their stories and open your eyes. It is not a happy picture, but the lesson is we can all do something about it. Find out what. Read the book.

Difficult to Read Because of Content

By Barbara Purtell

This book is on the subject of human trafficking which is just beginning to receive the attention it needs. At times, the book became so intense, I had to put it down and read something different before going back to it. I read it in preparation for a group discussion my church was having on the subject. The author writes well and incorporates actual stories with legal difficulties and public attitudes. Recommended for any group interested in being pro-active in bringing social justice to the community.
