Robert's book is the Bible of sudden wealth. So read it now!"

~ Mary Buffett, New York Times bestselling author of Buffettology

Everything changes. Those are the words I've heard time and time again over the past two decades from my clients who became sudden wealth recipients. Sudden wealth is a roller coaster ride of emotions - from the highest highs to the lowest lows. Sudden wealth is often portrayed as creating dire consequences for its recipients, but it can be an amazing opportunity that improves your life and those around you. I've worked with enough sudden wealth clients over the years to see patterns - what works and what doesn't. With proper guidance, and a willingness to stick to the 12 Principles outlined in this book, you can avoid the common pitfalls that so often destroy money, and instead transform your sudden wealth into lasting wealth to create a better life for yourself and others.

Here are just a few things you'll learn in The Sudden Wealth Solution:

- \* What does sudden wealth and surviving a disaster have in common? This one idea can help protect your money for generations.
- \* Learn about the three sudden wealth stages and what they mean.
- \* Never be caught off guard again. Learn just one sentence for when someone asks you for a loan or to invest in a project.
- \* Should you avoid making decisions after getting your sudden wealth? No. Doing so could cost you millions and be disastrous. Discover the decisions you are safe to make and those you must not make right after getting your windfall.
- \* Learn what time of day you should schedule phone calls and meetings with your advisors.
- \* Learn an effective and step-by-step method to choose the right attorney, CPA, and financial advisor for you.
- \* Read about the 8 key rules you can use to evaluate every financial advisor you interview.
- \* What's a Driver vs. a Passenger? You'll understand how this can help you make the important decisions.
- \* Overwhelmed and not sure what to do? Learn how to relax and start making progress.
- \* You might be surprised about the places you shouldn't look for an advisor.
- \* Certain money beliefs can make it nearly impossible to create lasting wealth. Learn which money beliefs you have and how to reset them.
- \* What to communicate immediately to friends and family after receiving sudden wealth.
- \* Copy a short note from the book that you can email to friends and family that puts you in control.
- \* Does it ever make sense to stretch the truth? You'll read why it just might.
- \* Figure out who's in your lifeboat and why this is one of the most important things you can find out to create financial security.
- \* Why people who get sudden wealth often act like monkeys and what you can do about it.
- \* Discover what really makes you happy and how you can use money to enhance your life.

- \* Learn what money has to do with cacti and ferns and why you want cacti.
- \* Read why the acronym SAFE can help protect your wealth.
- \* Can living with someone jeopardize your assets? Yes and you'll read the easy solution to this.
- \* Learn simple rules so you can invest like the Harvard endowment.
- \* Which investments are off limits and why.
- \* Learn how to create lifetime income from your sudden wealth.
- \* Worried you will spend too much? Learn how to break the spendaholic addiction.
- \* You inherited an investment account and want to know what you should do with it? You'll find out.
- \* Married and getting an inheritance? Don't make this mistake...
- \* There is a 50% IRS penalty you need to know about.
- \* Five critical things you must do if you are going to file for divorce.
- \* How to remain anonymous after winning the lottery.
- \* How to get a lifetime of tax free income after a lawsuit.
- \* Your company's stock had an IPO but you want to reduce your risk? Here are six ways.
- \* Why so many athletes and entertainers go broke and what to do about it.

Money well-spent

By Kindle Customer

There aren't many books that I read through and then turn right around and re-read, but this is one of them. Such a "wealth" of information on the subject of what to do when faced with a sudden wealth event. My second time through, I will be taking notes and making lists. I found the book to be very wise and comprehensive. The companion web-site has not launched yet at the time I am writing this, but promises to be full of resources such as recommendations for advisors and tools to gain a better understanding of oneself and money habits through self tests. I believe in being true to myself, but to do that, I must first know myself. I found this book really opened my eyes to some truths about myself and has made me more aware of my strengths and weaknesses. in summary, buying this book was money well-spent!

This Book is a Gold Mine.

By Movie Man 101

I read over 100 business/finance/self-help books per year and I must say, this book is one of the best books that I have read in a long, long time.

Not only does it offer tons of practical advice for sudden wealth recipients, it also dives deeply into the often overlooked psychological forces which influence the recipients of sudden wealth and their families/friends. The author has a way of distilling complex ideas into actionable and easy-to-implement steps, which makes this book far more powerful than most other books on wealth.

I that would highly recommend this book for anyone who wants practical advice on all aspects of how to protect, grow and manage wealth.

A refreshing read with crucial advice not often covered in personal finance books!

By S.A.

A refreshing read with crucial advice not often covered in personal finance books! When you experience a "sudden wealth" event and your finances change overnight, what do you do? Even a small inheritance can radically improve your financial life – how do you avoid blowing your new fortune? Why do so many lottery winners go broke, and how can you steer clear of this? These are some of the many questions answered in this book.

I read a lot of books on personal finance (to keep my own finances in check), and not often do I find myself so engaged during my read. Not only does this book offer a step-by-step roadmap to preserving new wealth (in 12 clever principles), it's also filled with personal anecdotes by the author, the psychological factors that influence our financial behaviors (why do we save and spend like we do?) and valuable resources that everyday people can turn to.

Overnight your finances can change, and this book breaks down the many different scenarios and steps you can take to ensure that you protect your finances for your future and your loved ones. Even a small windfall can make a big difference if you manage your money right, and this book is a great starting point for financial help and guidance.

Learning how to manage "sudden wealth" (or any amount of money), shouldn't feel like a chore, and this book is an enjoyable read to get started!
